

## HANLON COMPOSITES FIBERGLASS TECHNICIAN

### **SUMMARY**

We are searching to hire FIBERGLASS TECHNICIANS. If you have prior experience working with fiberglass, auto body, boat repair, or industrial painting, we would like to speak with you!

The 'hand layup' technique is a hands-on craft. You will clean the molds, use hand sprayers to apply gel coat on molds, use hand sanders to scuff, smooth and buff the molds and fiberglass parts, and you will also roll fiberglass cloths using resin onto molds. In addition, you will trim parts from molds using a hand trimming and grinding tool. This work requires your attention and precision. The position pays a minimum of \$33,280 to \$40,000 per year, paid hourly.

### **ESSENTIAL DUTIES AND RESPONSIBILITIES**

In this role, you may work by yourself or in small teams and be responsible for a project and meeting deadlines. In general, you should -

- Show up on time and ready to work!
- Be able to manage a project with critical deadlines
- Be able to collaborate with others
- Have a high degree of integrity
- Ability to stand and walk throughout the day

### **EDUCATION AND/OR EXPERIENCE**

- 4 years related experience and/or training or equivalent education
- High school diploma or GED required

### **BENEFITS:**

- Closed holidays
- Paid time off, Approved Leaves, Life Insurance, Dental, Short-term Disability, Long-term disability, Referral Bonus, and fun workplace and culture
- Plant hours are from 7:00am to 3:30pm

If you meet the above qualifications, send your resume and cover letter. We invite you to join *Team Hanlon!*
